

SonicAire Mounting Options

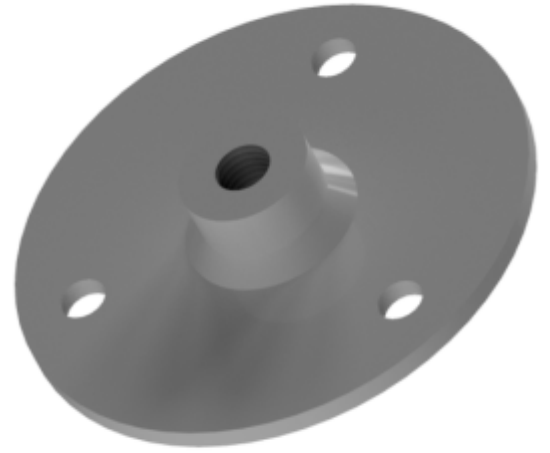

TPM

Three Point Mount

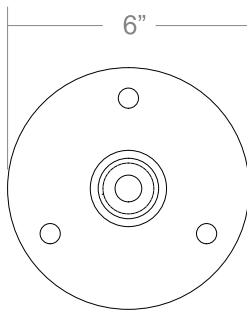

The TPM or Three Point Mount is our standard universal hanging mount. The TPM allows for the customer to mount a SonicAire fan from most flat building structure surfaces. The SonicAire fan attaches to the TPM with a support tube (included).

Note: SonicAire does not provide attachment hardware for the TPM. The necessary hardware is determined by the structure to which the TPM is secured.

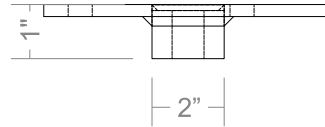

Approx. Weight: 13 lbs
(in addition to fan assembly)
